WORLD'S FIRST

LAVENDER-TREATED MATTRESS

At Napcat, we constantly look for innovative ways to enhance your sleep in more than one way. Our lavender treatment is exactly that — a first of its kind, anywhere in the world.

In our testing over the past year, the essence of lavender endured beautifully, though like any natural botanical it responds to factors such as moisture, temperature and climate.

THE BENEFITS

- 01 Proven to induce deeper sleep
- 02 Helps reduce anxiety
- 03 Widely used to ease migraines & headaches
- 04 Wake up in a better mood

Like every natural botanical, lavender's essence interacts with moisture, temperature and climate — which is why every treated mattress is tested for endurance, not just first impressions.

WORLD'S FIRST

CITRONELLA-TREATED MATTRESS

Why stop at lavender? Citronella is our newest treatment range, tested with the same rigour. Because citronella's natural aroma is a little pungent, we dilute it with a special carrier that preserves the effect while reducing the scent by almost half.

The result is a mattress that quietly works for you all night long:

WHY CITRONELLA

- 01** Repels mosquitoes & airborne insects
- 02** Uplifts your mood
- 03** Helps your body relax naturally
- 04** Reduces fungal build-up inside the mattress

Tested with the same one-year endurance protocol as our lavender range — so the benefits last as long as the mattress does.

ECO PLUS

Honest comfort, engineered to a sharp price.

Eco Plus is proof that a dependable night's sleep doesn't need a premium price tag. At its heart sits a solid block of high-resilience Ortho HR foam, a dense, supportive core that keeps its shape night after night, year after year, wrapped in a soft, breathable mellange fabric on both sides.

The non-quilted, tight-top construction keeps the sleeping surface flat and uniform, so your spine stays naturally aligned in every position. With its medium-firm feel and a full five-year warranty, Eco Plus is the smartest first step into the Napcat family.

WHO IT'S FOR

- First homes and rented apartments
- Hostels, PGs and guest bedrooms
- Students and young professionals
- Anyone upgrading from cotton or basic foam beds

TOSS

Two mattresses. One decision. Just flip it.

Can't decide between plush and firm? Toss settles the argument. One side cushions you with 50 mm of Dynamic Comfort Foam for a relaxed, medium feel; flip it over and the dense Ortho HR side delivers committed, board-firm support. Same mattress, two completely different personalities.

Both faces are finished in a pressure-relieving knitted fabric that disperses body weight evenly, and the tight-top build keeps either surface true and consistent. As your preference, posture or season changes, your mattress changes with you — for a full ten-year warranty period.

WHO IT'S FOR

- Sleepers still discovering their ideal firmness
- Couples who disagree on feel
- Growing kids and teenagers
- Homes that like to rotate and refresh

SPINAL ALIGNER

Firm where it matters. Kind where it counts.

Spinal Aligner is Napcat's classic orthopaedic workhorse, built around a thick rebonded foam core — the firm, high-density heart that physiotherapists have trusted for decades. It holds your hips level and your spine in its natural line, preventing the slow sag that causes morning backache.

Above the core, slim layers of Dynamic Comfort and Ortho HR foam soften the first touch, while the quilted premium knitted cover adds a gentle, cushioned hand-feel. The result is unmistakably firm support that never feels punishing — true orthopaedic sleep, done the original way.

WHO IT'S FOR

- Back-pain sufferers and posture-conscious sleepers
- Back and stomach sleepers
- Those advised a firm bed by their physician
- Anyone replacing a sagging old mattress

SNUGGLE

The coir mattress your family grew up on — perfected.

Snuggle honours the time-tested Indian coir mattress and rebuilds it with modern precision. Alternating strata of responsive natural coir and rebonded foam create a breathable, springy core that circulates air with every movement — keeping the bed naturally cool through the warmest nights.

That layered coir-and-foam construction delivers a confident medium-firm feel: supportive enough to keep your spine in line, with just enough give to stay comfortable. Quilted on top and finished with an anti-skid base, Snuggle is tradition you can feel, built to last.

WHO IT'S FOR

- Lifelong coir-mattress loyalists
- Warm sleepers who value airflow
- Those who prefer a firm, grounded feel
- Lovers of a natural, springy support

WHY YOU'LL LOVE IT

GUARDIAN

Wellness woven into every layer.

Guardian opens with something genuinely special: a layer of Turmeric Memory Foam. Infused with the goodness associated with India's most trusted natural ingredient, it slowly contours to your body, easing pressure at the shoulders and hips while you drift off on a plush, quilted surface.

Beneath it, Dynamic Comfort Foam adds a responsive mid-feel and a tall Ortho HR base supplies the structure, landing Guardian at a friendly medium 7 — soft enough to sink into, supportive enough to wake up fresh. One mattress that keeps the whole household happy, guarded for ten full years.

WHO IT'S FOR

- Sleepers who find orthopaedic beds too hard
- Side and combination sleepers
- Master bedrooms shared by two
- Wellness-minded buyers

HYBRID SIESTA

Check in every night. Never check out.

That unmistakable luxury-hotel feeling — the gentle bounce, the way the bed absorbs your partner's movement, the cloud-like settle — comes from one thing: independently pocketed springs. Hybrid Siesta brings hundreds of them home, each coil wrapped in its own pocket so it responds only to you.

Layered above the springs, Dynamic Comfort and Ortho HR foams smooth the surface into a plush, even landing, quilted on both faces so you can choose between a medium-firm or softer feel. Adaptive, breathable and quietly indulgent — this is the everyday five-star upgrade.

WHO IT'S FOR

- Couples disturbed by partner movement
- Fans of the luxury-hotel sleeping feel

EMPRESS

Your first taste of latex. You won't go back.

Empress is the gateway to Napcat's organic latex collection. A 25 mm sheet of imported organic latex sits directly beneath the silky luxury knit cover, lending the surface that signature latex character — instantly responsive, naturally cool, and gently buoyant rather than sinking.

Dynamic Comfort Foam deepens the cushioning and a substantial Ortho HR base anchors the whole build at a versatile medium 7. Latex is also naturally hypoallergenic and resistant to dust mites, making Empress as kind to sensitive sleepers as it is indulgent. Luxury, sensibly begun.

WHO IT'S FOR

- First-time latex buyers
- Allergy-prone and sensitive sleepers

EMPRESS PLUS

Twice the latex. Twice the lift.

Empress Plus doubles down — literally. A full 50 mm of imported organic latex forms the entire comfort system, so every inch you feel is pure, lively, organic latex. Where memory foam swallows you, latex lifts: it compresses instantly under pressure and springs back the moment you move.

That "bounce back, not sink in" character keeps you sleeping on the mattress, never trapped inside it, while the Ortho HR foundation holds everything at a poised 7.5. Cooler, cleaner and more responsive than conventional plush beds — this is latex with conviction.

WHO IT'S FOR

- Latex lovers wanting a deeper latex feel
- Sleepers who dislike the memory-foam sink
- Active sleepers who change positions often
- Hot sleepers seeking natural cooling

LEGEND

Engineered around your shoulder and hip.

Side sleeping concentrates your whole body weight on two small points — the shoulder and the hip. Legend is purpose-built for exactly that. Turmeric Memory Foam melts away pressure at the contact points, while a layer of organic latex beneath it adds lift, so you're cradled without ever feeling stuck.

A deep rebonded core keeps your waist from hammocking and your spine ruler-straight from neck to tailbone, all under a sumptuous Supima-quilted cover. At a soft-yet-supportive 6.5, Legend turns the most demanding sleeping position into the most comfortable one.

WHO IT'S FOR

- Dedicated side sleepers
- Sleepers with shoulder or hip soreness
- Lighter body types needing contour

MONARCH

Every great idea we've ever had. In one bed.

Monarch is Napcat without compromise. It begins with a hand-finished Eurotop of Supima-quilted organic bamboo fabric — silky, thermo-regulating and impossibly soft. Below, Turmeric Memory Foam and a thick 50 mm slab of organic latex layer contour over lift, comfort over response.

The foundation is a field of independently pocketed springs, isolating motion and breathing with every movement, steadied by Ortho HR transition foam. Standing a stately ten to twelve inches tall at a sumptuous 6, Monarch isn't simply a mattress — it's the centrepiece of the bedroom.

NIRVANA

One material. Zero compromise. Pure organic latex.

Nirvana is the purest expression of "Be Organic, Sleep Organic." There are no foams, no springs, no fillers — just a single, solid 150 to 200 mm core of imported organic latex, dressed in breathable organic Tencel fabric. What touches your skin and supports your spine is entirely natural.

Solid latex is sleep's most honest material: medium-firm, instantly responsive, naturally cool, hypoallergenic and astonishingly durable — which is why Nirvana carries Napcat's longest warranty, a full fifteen years. For the purist, this is the destination. The rest is just the journey.

WHO IT'S FOR

- Organic and natural-living purists
- Allergy sufferers and asthma-conscious homes
- Buyers who view sleep as a long-term investment

ORION

Designed to lift, aligned to heal.

Orion is built around a single promise – a sleeping surface that lifts you into perfect alignment and lets your spine recover while you rest. At its core sit independent pocketed springs that move one at a time, answering every curve of your body and isolating motion so a restless partner never disturbs your sleep.

Above the springs, a layer of GOLS-certified natural latex and a dense Ortho HR foam plate work together to relieve pressure at the shoulders and hips while holding the lower back firmly in place. The result is a balanced medium-firm feel – supportive enough for back and stomach sleepers, yet forgiving enough to wake up genuinely pain-free.

WHO IT'S FOR

- Back and stomach sleepers
- Anyone with lower-back or posture concerns
- Couples who want zero motion transfer
- Sleepers seeking a natural, breathable bed

AURA CLOUD

The multi-matrix system for weightless, pain-free rest.

Aura Cloud layers four distinct comfort technologies into one weightless multi-matrix system, so pressure simply melts away the moment you lie down. A plush quilted top flows into turmeric-infused memory foam that cradles every contour while gently soothing the skin and keeping the surface fresh.

Beneath the cloud-soft top, an Ortho HR foam plate and independent pocketed springs quietly take over the hard work – supporting your spine, absorbing movement and pushing back exactly where you need it. The effect is a soft, floating feel that never lets you sink too far, for deep, pain-free rest night after night.

WHO IT'S FOR

Warranty Coverage

NAPCAT MATTRESSES

Every Napcat mattress is covered against manufacturing defects for 1 to 10 years from the date of purchase (15 years for Nirvana). For the initial 30% of the warranty period — e.g. 3 months on a 1-year warranty, 3 years on a 10-year warranty — the mattress is in its **GUARANTEE** period and will be replaced if a manufacturing defect is found. After this period, a prorated warranty applies.

TERMS OF COVERAGE

- 1 The guarantee covers only manufacturing defects leading to product failure.
- 2 Product failure is defined as sagging of the mattress core.
- 3 Depressions under 1" (mattresses up to 5" thick) or 1.5" (thicker mattresses) are not covered.
- 4 If multiple mattresses are purchased, only the defective one will be replaced.
- 5 Regular wear and tear of fabric and stitching are not covered.
- 6 Changes in comfort or firmness preference are not covered; allow several weeks for your body to adjust to a new mattress.
- 7 Damage from improper bed-frame size, uneven surfaces or poor structural design is not covered.
- 8 Ironing damage is not covered.
- 9 Stains occurring after unpacking and during use are not covered (report within 2 days of delivery).
- 10 Stitches opening after 30 days from delivery are not covered.
- 11 Loose quilting reported after 30 days from delivery is not covered.

Warranty Coverage

NAPCAT MATTRESSES

TERMS OF COVERAGE (CONTINUED)

- 12 Replacement time depends on product availability.
- 13 A size variation of ± 0.5 " in length, width and thickness is acceptable; the mattress may take 2–3 days to settle to its actual size after unpacking.
- 14 Odours from enclosed environments, moisture, excessive wetness or liquid spills are not covered.
- 15 User-inflicted damage, insect infestation and natural calamities are not covered.
- 16 Proper use of the product is required to avail the guarantee.
- 17 Warranty is valid only for purchases from an authorised Napcat store, website or marketplace.
- 18 Claims are settled by replacement with an identical product; if unavailable, a similar or higher-value substitute or a prorated discount is provided.
- 19 Napcat's decision on warranty claims is final.
- 20 Disputes are subject to Erode jurisdiction.
- 21 Doorstep inspection services are not offered; special cases may incur a visit charge.
- 22 This warranty policy is effective from August 1, 2024 and supersedes all previous policies.

HOW TO CLAIM

To claim, refer to your warranty card and contact Napcat Customer Care at support@napcat.in with photographs of the entire mattress surface and the visible fault (reference images will be provided). Without photographs, replacement or prorated coupons may be delayed or denied. Proof of purchase — invoice and MRP label — is required.

PRORATED WARRANTY — WORKED EXAMPLE

Example: a mattress with a 5-year warranty purchased for Rs. 10,000 — any defect in the guarantee period is replaced or repaired. For a defect after 1.5 years, the prorated coupon is $(10,000 \div 5) \times 3.5 =$ Rs. 7,000 off a new Napcat mattress. Formula: $(\text{Amount Paid} \div \text{Warranty Years}) \times \text{Balance Years}$.

Pillow Warranty & Care

COVERAGE BY MODEL

■ Elevate	No warranty
■ Relief Memory	1-year warranty
■ Relief Contour Memory	1-year warranty
■ Napcat Organic Latex Pillows	2-year warranty
■ Neck Shield Pillow	1-year warranty

WARRANTY CONDITIONS

- Slight softening and settling of thickness are normal and not covered.
- Changes in comfort and softness are not covered.
- Physical damage of any kind is not covered.
- Warranty is valid only if the product is registered.
- Coverage is limited to excessive sagging due to manufacturing defects.
- Fabric damage, pilling and colour fading are not covered.
- A size-variation tolerance of ± 1 inch is acceptable.

PRORATED EXAMPLE

For a 1-year warranty, the first 6 months cover full replacement; beyond that, 50% of invoice value applies. For a 3-year warranty — pillow cost Rs. 3,000, defect after 1 year: $(3,000 \div 3) \times 2 = \text{Rs. } 2,000$ pro-rata.

WASH - CARE INSTRUCTIONS

- Never wash the pillow core; keep it covered to protect it from dust and dirt.
- Clean the core with a damp cloth and dry fully before use.
- Wash removable covers separately in warm or cold water with mild detergent.
- Avoid bleach — it weakens fabric fibres.
- Never pour detergent directly on the fabric; dilute it with water first.
- Wash identical colours together; wash white covers separately.

CARE & WARRANTY

Mattress Care Guide

Four simple habits that add years to your mattress.

01

Routine Cleaning

Dust and allergens accumulate on every mattress and can trigger respiratory issues. Vacuum regularly to remove particles. For spot cleaning, use mild detergent and water and let the mattress dry thoroughly. To keep it fresh, sprinkle baking soda, leave for a few hours, then vacuum.

02

Rotating & Flipping

Rotate and flip your mattress every 6 months for even wear — especially important for pocket-sprung and coir builds. Memory-foam models only need rotation, as they mould to your body shape.

03

Avoiding Damage

Mattresses are built with precision. Avoid jumping on the bed — it can damage the internal structure, particularly spring and layered cores.

04

Use a Mattress Protector

A protector is insurance for your mattress, shielding it from spills, sweat and dead skin cells. Modern protectors are breathable and don't compromise comfort. A good protector meaningfully extends mattress life.
